ACTUAL STATUS

- Consultant in Haematology at the University Hospital Leuven, since 1983
- Doctor in the Internal Medicine (since 1983), Head of department of Haematology of the ZNA, consultant on the department of nephrology, coordinator of the department of Internal Medicine.
- Training master for trainees in internal medicine and students in medicine
- Head of the EBMT transplantation program CIC 339
- Guest docent at the University of Leuven
- President of the CREMEC Antwerpen since 2003

MOTIVATION:

As head of the department Haematology of one of the biggest non University teaching hospitals in Europe i will promote research activity in Non University hospital.

This is absolutely necessary because we have the duty to train our trainees, and because the Clinical haematological pathology in non University hospitals is quite different as in an University Hospital.
